PRESS RELEASE

Rogue Community Health to Offer
Butte Falls Vaccine Clinic for Anyone 45 and Older

BUTTE FALLS, ORE. (Apr. 7, 2021) — On Thursday, April 15, from 1 to 5 p.m., Rogue Community Health (RCH) will offer a vaccine clinic at the Butte Falls Health Center at 722 Laurel Ave. for anyone 45 years and older.

Pre-registration is required and can be completed on phone or computer at roguecommunityhealth.org/vaccine or by calling 541-773-3863.

"We want to ensure our rural community has access to the vaccine," says Butte Falls Clinic Manager Brandon Faber. "It's important for people to have availability near them at a location they trust."

The COVID-19 vaccine administered will be the one-dose Johnson & Johnson vaccine, which has been proven to be 85% protective against severe illness.

The vaccine will be offered at no cost to participants. Those who have insurance need to bring their insurance card. All participants need to bring a form of identification.

Rogue Community Health has held two community vaccine events so far and also has been vaccinating their eligible patients. A March 13 event at White Mountain Middle School resulted in 134 vaccinations and an April 3 event for farm workers, held at Fry Family Farm, resulted in 235 vaccinations.

Anyone with questions about the April 15 clinic should call 541-826-5853. In addition to registration forms in English and Spanish, event flyers are also available for download at roguecommunityhealth.org/vaccine.

About Rogue Community Health (RCH)
Rogue Community Health is a nonprofit community health center that serves nearly 15,000 patients in the Rogue Valley, regardless of insurance or ability to pay. Services include medical care, dental care, behavioral health, integrative health, pharmacy, pediatrics, school-based health centers and community resource assistance. Their mission is to "improve health, especially for the most vulnerable, in partnership with our community."
